NOTES

Item	Focus	Leader	Date
1.	Welcome, introductions and acceptance of agenda The agenda for today’s meeting was reviewed and agreed by the panel members.		
2.	Review of actions and notes from previous meeting The actions from the last meeting were reviewed, with all completed actions being closed.		
3.	Annex section layout <u>3.1 – Diagram arrangement</u> RW led the group through the diagrams he had produced and added to the document since the last meeting. Some discussion was had on the arrangement of diagram 3 and the placement of CB17 within. This diagram will be amended to incorporate the changes by RW. While reviewing diagram 6 of the annex consistency was raised in the naming of the power stations. It was suggested the example power station names be amended. CK took an action to provide alternatives for the WG to review. <u>3.2 – Annex table development</u> All diagram table wording was reviewed on the grounds of consistency with the main body of text and the wording used within the restriction’s sections. General consistency of the text used within the tables was looked at and amended where required.	RW CK	07/04/21 07/04/21
4.	Agreement on main body of text in draft EREC The WG ran through an enquiry received since the last meeting and how the circuit compliance would be met under the terms of the draft EREC. AC will draft some text to be reviewed by the WG at the next meeting to cover this scenario. The term ‘switchgear’ was included into restriction C and the definition for Isolation was reviewed. The normative text for the exclusions section was amended to include DNO’s networks and applications to 11kV designs.	AC	07/04/21
5.	AOB None raised		
6.	Date of next meeting to be agreed. Meeting was agreed at the meeting, it will be held via MS Teams on 7 th April. CMc to arrange.	CMc	26/03/21
