

**Project / Document Update for the 91<sup>st</sup> Meeting of the  
GB Distribution Code Review Panel**

**2<sup>nd</sup> December 2021  
Commencing at 12.30**

**Microsoft Teams (use link on invitation)**

**Or use Dial-in details:**

**Teleconference number 020 3855 5885**

**Conference ID: 727 932 089#**

**DCRP/MP/21/04 - EREC G12 Issue 4 Amendment 2**

A re-draft of Engineering Recommendation G12 Issue 4 Amendment 2 has been completed and a Final Report to Authority prepared and submitted to Ofgem for approval. If approved an updated copy of the Distribution Code will be published with the amendments included.

This amendment covers the earthing of Class I electrical street fixtures and a more comprehensive review of EREC G12 is planned for 2022.

**DCRP/MP/21/05 - DCode Compliance**

The public consultation on the Distribution Code compliance modification has closed, feedback has been collated and reviewed. A Final Report to Authority has been prepared for submission, and a version of the Distribution Code drafted to incorporate the required amendments to the Distribution Code.

**DCRP/MP/21/07 - EU Exit Modification**

The draft document outlining the proposed legal text changes is now complete, a consultation paper has been prepared for the panel's approval to go to public consultation. Once the consultation stage has closed the responses will be collated.

**DCRP/MP/20/05 - EREC P18 Issue 2**

Drafting of Engineering Recommendation P18 Issue 2 is now complete, with a copy of the final document having been submitted to panel members for approval. As the document is Annex 2 classification, the unanimous decision of the panel will be sought to approve the document.

A period of 90 days between publishing and implementation is planned to allow for any currently ongoing design submissions to be progressed before compliance with Issue 2 is recommended.

**DCRP/MP/19/09 - EREC P24 Issue 2**

Any further development to P24 will be delayed to align with P29 expected publishing – P29 is currently undergoing review by members. P24 Issue 2 has seen majority of members of the group in agreement, with a further update being provided by the end of January.

## **DCRP/MP/20/04 - Data Exchange WG**

Work is progressing on drafting of the guidance document that will accompany the data schedules to be exchanged as part of the week 24 submission to NGENSO. Sections have been discussed, covering ad-hoc data exchange relating to connections and operational issues to be included also.

## **DCRP/MP/21/02 - EREC G100 Issue 2**

The second (56 day) public consultation on Engineering Recommendation G100 is currently ongoing. Once this stage of the modification proposal closes the responses will be collated and the Working Group will meet to discuss any items raised by stakeholders.

## **DCRP/MP/21/09 - Distributed Generation Connection Guides**

A consultation was held for the proposed updated versions of the DG Connection Guides. with no negative feedback received, these guides will now be published.
